

## An image management solution for all your research needs

- 1 TrialTracker allows you to share images with collaborators locally and globally.
- 2 TrialTracker helps you maintain regulatory compliance including patient privacy, access control and audit trail.
- 3 Use TrialTracker to collect de-identified data from all sites and check quality and labelling.
- 4 TrialTracker provides real-time visibility and scheduling of your research studies.
- 5 Use TrialTracker's viewing and reporting tools or integrate your own analysis solutions.
- 6 TrialTracker provides secure storage including disaster recovery options.
